

MBA Todor Milchevski and MSc Martin Stojanovik took part in a 3-day Capacity-Building Seminar, which took place in Becici, Montenegro, from 2-5 May, 2012. The Seminar was organized by the European Fund for the Balkans, as part of the Think and Link Regional Policy Programme 2012.

NBE was one of the twelve organizations from the Western Balkan region that was awarded with a grant, and consequently invited to participate in this seminar. The Seminar had the goal of improving the skills of the participating organizations through training, networking and information-sharing both among each other and with other EU based organizations.

The Capacity-Building Seminar offered logistics and networking support to NBE and is of crucial importance for successful implementation of the proposed research project “Regional Development and Policies – Sharing the German and Slovenian Experience”.
